

*Making Tax & Accounting Issues Simple.
That's Our Bottom Line!*

Accounting Plus for Bravery: Free Tax Return Service

A heartfelt thank-you to all frontline healthcare workers for the courage and commitment you have shown since the beginning of the COVID-19 crisis. While we cannot be on the frontlines with you, Accounting Plus Financial Services Inc wants to do what we can to help.

As a small token of our appreciation, Accounting Plus wants to contribute their professional expertise to help prepare frontline healthcare workers' 2019 taxes for free. In keeping with social distancing guidelines, there will be no face-to-face meetings – Accounting Plus will receive all documentation electronically.

Eligibility

This program is available to nurses, paramedics, lab technicians, doctors, cleaners, other healthcare staffs, fire fighters and police officers on the frontline during COVID-19.

Because we want to help as many frontline workers as we can, the program will cover basic individual, spousal and dependent children's tax returns.

Please note the program does not include more complex tax returns, such as those involving self-employment income or employment expenses, business or rental income and expenses or foreign property (T1135).

Deadline

To ensure all returns will be ready in time to meet the June 1 filing deadline, the program will be accepting applications until May 15, 2020.
